Forecast for Monday 07 Nov 2022

Weather: Mainly dry start with clear then bright spells. Cloudy skies and occasional rain will extend northwards during morning then further rain at times in afternoon, much of it in south of area.

Chance of cloud-free hill tops above 800m: 50% best chances in north of area.

Low Cloud and visibility: Becoming misty during the morning, most widespread across the Ochils and Perthshire hills with patches of poor visibility and extensive cloud cover down about 600 to 700m. Some poorer conditions edging up across Angus hills but visibility staying mainly good over eastern Cairngorms and Aberdeenshire hills with higher cloud bases.

Met Office Aberdeen Meteorologist's View
Continuing to feel cold over the tops. Note winds increasing to gale force on the tops late in the day.

Forecast for Tuesday 08 Nov 2022
Weather: A brighter day with sunny spells but also scattered showers breaking out. The showers will be most frequent over Perthshire hills, heavy at times with small risk of thunderstorms.

Maximum wind: Strong southerly winds, average speeds of 20 to 30mph with gusts 40mph over the tops.

Chance of cloud-free hill tops above 800m: 70%, best in north of area.

Low Cloud and visibility: Generally good visibility with occasional clouds about 700 to 800m. Temporary reductions to poor visibility as heavier showers pass by, bringing clouds lower down the hills, especially in southwest of area.

Temperature: **Glens:** Plus 5 Celsius rising to 14 Celsius.
At 800m: Plus 8 Celsius.
Freezing level: Above the summits.
